The Student Council is the governing body of the school. It represents each class in the high school and tries to govern according to the wishes of the student body.

The Student Conncil has sponsored two main events this year, Homecoming, with a successful parade and party for the Alumni, and organizing the Patrolmen.

The Student Council is also getting new curtains for the auditorium, and has begun to work on May Day.

The Chase City Beta Club was formulated April 24, 1948, when it received its charter before the faculty and entire student body of Chase City High School. Approximately twenty students were admitted as charter members. After the new group established its present high standards and rigid requirements for applicants, today, thirty-five names are on the club roster.

To become a member of the local chapter, a student must possess a high B average in scholastic standings and upon acceptance maintain a B average throughout his enrollment in the club. In addition to the scholastic achievements, a student must engross creditable records in character and leadership.

As stated in the preamble of the local club's constitution, the club believing in the rewarding of superior achievement in scholastic endeavor, was created "to encourage and cultivate the proper leadership abilities in tomorrows good citizens."

The girls in Blue and White really showed pep and spirit in 1951; they put what they had into each and every game, and conveyed the feeling of pep and spirit to others. They were behind their team at all times, rooting for their victory. These girls showed determination in a great many ways trying to keep the boys' morales up. There were no sarcastic yells given even though they received a great many, but this was one thing the Cheerleaders of '51 didn't "believe in". These Cheerleaders were a credit to their school and should be given a hearty "Thank you" for the splendid job they did.
